Stay Set Hoses

For applications where frequent repositioning of the air product is required, the Flexible Stay Set Hoses™ are ideal. Simply mount the hose in close proximity to the application and bend it. Since the hose has “memory”, it will not creep or bend. It will always keep the aim until physically moved to the next position and will withstand temperatures of up to 158°F (70°C). (1/4 male NPT fitting on one end, 1/8 female NPT on the other)
